**Infant Room: 6 weeks to 7 months      \$150.**

To graduate the child should be sitting up, pulling up on his/her own, crawling, able to stand, holding his/her own bottle.

**Baby Room: 7 months to 12 months      \$150.**

To graduate the child should be walking, using a “sippy cup”.

**Toddler Room 1: 1 year to 2 years      \$140.**

Walkers will learn to drink out of a cup, recognition of colors, numbers and shapes.

**Toddler Room 2: 2 to 3 years old      \$140., if not potty trained. \$135. Trained**  
Beginners in this class are still in diapers, moving toward pull ups, and then finishing with being fully potty trained. These children will learn and then master sitting at a table, participating in “circle time”, learning their alphabet, counting, and distinguishing shapes. Some work on “sight words” is introduced to candidates who are showing signs of readiness. Readiness for VPK (Voluntary Pre Kindergarten) is the goal.
